From the desk of
CEO.....

Dear Friends,

The whole world is our family and
we owe some responsibility towards the society.
Our body is a medium, an instrument
to fulfill these duties.

A healthy body and healthy mind
helps us to do the same.

Let's all be health conscious.

Yes.. at Nitraj we are...

We love sports
in thought and Act.

Rajesh Bhatwal
CEO

Quality Policy

We at Nitraj Engineers Ltd. are committed to Design, Develop, Manufacture and Service Electronic Weighing Scales, Currency Counting Machines, Auto Fare Meters, and Electronic Systems to meet Customers Requirement and Satisfaction.

This we shall achieve through the process of continual improvements in Product performance, Customer Satisfaction, Development of employees and implementing Quality Management System in all the areas of organisation to achieve Market leadership.

This policy shall be reviewed for continuing suitability and shall be revised if needed.

Coins of Olympic Games

U.S.A - Olympic 1984
Gold Coin of \$ 10

The Olympic Games have always been the most esteemed athletic event on our planet. This is one of the greatest gift government to mankind

Olympic Games were in existence by 776 B.C. and continued to be held every four years until 393 AD, then it was discontinued.

In the year 1894 this event was revised by Baron Pierre de Coubertin with the idea of including athletes of all nations in this sporting contest. The first modern Olympics were staged at Athens in 1896. Games have been held every four years since then. Although the first Olympic coin is traceable back to 480 B.C. The original concept of Olympic coin Greek believed was that "Coins brought people closer to the Olympic, those who could not attend the event could have a tangible Souvenir with them." Traditionally Olympic Coins are numismatic coins, a memento of the sporting event.

Bruttium - Rhegion Coin
478 - 476 B.C

Ancient Greek Olympic Coins

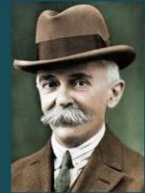

Ancient Olympic Coin
depicting Victory, 480 B.C

Coins from Royal Canadian Mint
Burlington - 2009

Pierre de Coubertin (1863-1937)
French Scholar, pioneered the modern Olympics. Inspired by the excavation of ancient Olympia, he founded the International Olympic Committee, the governing body of the Games in 1894. He was French educator and historian. He is considered as the father of the modern Olympic Games.

*The most important thing
in the Olympic is not winning
but taking part,
the essential thing in life
is not conquering but
fighting well*

Pierre de Coubertin

Focus of the Month - December 2015

We have developed PPS model with BMI feature. Special feature is provided to display BMI of the person standing on the scale, user needs to enter his/her height by using the keyboard of machine.

Procedure to display BMI is as :

- 1) Stand on scale. Weight gets locked when stable.
- 2) Step down from the scale.
- 3) Press MODE key.
- 4) Enter the Height using up-down keys.
- 5) Press MODE to confirm.
- 6) BMI is displayed.

This scale can also be used as our standard PPS scale. We have provided selection facility for changing the scale from PPS and PPS-BMI. Also when the scale works as PPS scale, you can select whether the weight should be locked on stable weight.

R & D Updation

We have provided PBMI-200 scale with RF-ID card reading writing facility. RF ID card is Radio Frequency Identification card in which we can write numeric information electronically and read the same when card is brought near reader/writer module.

Reader and writer are provided on single PCB. This is mounted above Display PCB of PBMI Scale.

We have provided a wizard in PBMI scale that allows to set a unique (Maximum) 16 digit number and write it on RF ID card when brought near the module. Using this wizard we can write as many numbers of cards as required. We can overwrite a single card as many times as required. These cards can be then assigned to the persons whose BMI is to be checked.

When the person comes to check BMI, he has to first scan the card on the module. Scale will recognize the unique number and will display BMI of the person. This information can be further transferred to Computer with Serial Interface for recording. This information will contain Unique Identification Number of the person on RF ID card, Date, Time, Weight, Height and BMI. Then this information is stored in file named with .csv extension (Comma Separated Value). Further we can open this file in MS-Excel.

Application :

- 1) Useful for Schools for checking and maintaining BMI related data of students.
- 2) Useful at the Military/Police recruitment.
- 3) Useful in Hospitals for maintaining data of patients.
- 4) Applicable in Primary Health Care Centers at Rural and Urban levels.

Coins of Olympic Games

In 1951 the Government of Finland authorised minting of first Olympic coins a "Marakkaa." At the time of Montreal Olympic in 1976 Canada produced seven sets of coins, including Silver Coins of \$5, \$10, and Gold Coins of \$100. Austria issued four 100 Schilling Coins featuring winter games at Innsbruck in 1976.

By this time every hosting country of Olympic Games started minting this prestige Coins, and they were often better designed and visually more attractive 'Souvenir Coins'

For the 1980 Summer Games in Moscow, Soviet Union minted a series of coins in Silver, Gold and Platinum. In 1984 winter Olympic were staged in Sarajevo and to

publicize the games, Yugoslavia began to issue a series of 500 Dinars Silver coins from 1982 onward, featuring various winter sports.

In 1988 Canada issued ten Silver Coins of 20 dollar. Honouring Barcelona Summer Olympic Games 1992, Spain produced superb collection of Gold & Silver Coins.

For the Millennium Games of 2000, Austria produced total of 28 Coins in various metals.

To mark Athens Games of 2004, Greece minted six sets of 10 Euro & 100 Euro coins.

- 1) Olympic Gold coin 1988 USA \$ 5
- 2) London Olympic 2012 Gold coin depicting all events
- 3) 50 Pence Silver coin Swimming - highly appreciated
- 4) Beijing Olympic 2008 Gold coin
- 5) Olympic 2012 50 Pence Silver coins
- 6) Winter Olympic 2014 Russia Sochi

6

- 7) Australian Olympic team coins in Gold Silver and Bronze
- 8) Rio de Janeiro Olympic 2016 Commemorative coins issued by Central branch of Brazil
- 9) Australian Gold coins depicting Olympic Games
- 10) 5 Olympic Rings representing 5 continents - member nations of International Olympic Committee.
