

USB Host Port

Weighing scale Indicator with USB Host Port allows to transfer stored weight data to a pendrive, in excel format.

MAIN FEATURES :

- ◆ Bright Red/Green/Blue LED display to show the weight.
- ◆ User can store the data of 2000 batches with date and time of the weighment in internal memory of the indicator. This data can be transferred to a pen-drive. The data on pen-drive can be accessed in Excel on PC for further data processing.
- ◆ Weight can be stored either manually by pressing a key or automatically. Minimum reference weight to auto save the current weight is settable by the user.

APPLICATIONS :

- ◆ Poultry farms.
- ◆ Agricultural Produce Market Committees.
- ◆ Other agricultural and cotton markets.

*This can be supplied with 3 LED and Inbuilt Printer also.
